

Computerized Door Edge Machine DT-650

The Dotul DT-650 machine is designed to machine for hardware preparation on all four edges of a door, one edge at a time. It uses a configurable computer program to machine for conventional leaf hinges, SOSS hinges, flushbolts, automatic fire sweeps, deep lock mortise, multi-point lock hardware, closure devices, re-routing stiles and rails and any edge machining within the maximum door or panel size.

Features and Benefits

- **Floating Table** – Easily allows the operator to move the door around and in position.
- **High Capacity Dust Collection** – Removes most of the dust from the cutting heads.
- **Heavy Duty Frame Construction** – To ensure stability and reduce risk of the frame twisting.
- **Touch Screen Controls** – Easy operation for the operator to select different hardware options.

SPECIFICATIONS

- Door Width** - Up to 4'-0"
- Door Height** - Up to 10'-0"
- Door Thickness** - Up to 2 1/4"
- Maximum Depth of Pocket Mortise** - 6"
- Maximum Weight of Door or Panel** - 300 lbs
- Electrical Requirement** - 230/3/60 or 460/3/60
- Air Requirement** - 90 psi / 25 cfm
- Space Requirement** - 13'L x 7'W x 6'H
- Dust Collection** - 2800 CFM / 5" Connection

Safety Shields and Controls

- All cutting heads have guard systems surrounding them.
- Lock out/Tag out on the electrical control boxes.
- Components are CE and/or UL approved.
