

Deep Lock Mortiser DT-523

The Dotul Deep Lock Mortiser can be used in-line with a Maverick, Nomad or other brand of vertical door machine. It can also be used free standing. The DT-523 does not use templates and will machine for a wide variety of mortise locks and extended faceplates.

Features and Benefits

- **Quick setup changes** - Reducing down time between different locks specifications.
- **Route for square or beveled faceplate** - Improves quality and appearance of finished door.
- **Uses a Programmable Logic Controller** - More reliable and easy to trouble shoot.
